

ANTEC

# P7 S

Mid-Tower ATX Case

## SLEEK BRUSHED FRONT WITH DUAL SIDE MESH DESIGN

The dual side mesh design on the sleek silver brushed front panel enhances intake airflow and boosts overall cooling efficiency.

## 4 PWM FANS INCLUDED

Pre-installed with 4 PWM daisy-chain fans – 3 x 120mm PWM fans at the front + 1 x 120mm PWM fan at the rear.

FRONT & REAR  
4 x 120mm PWM Fans

## SUPPORTS 360MM RADIATOR AT THE TOP

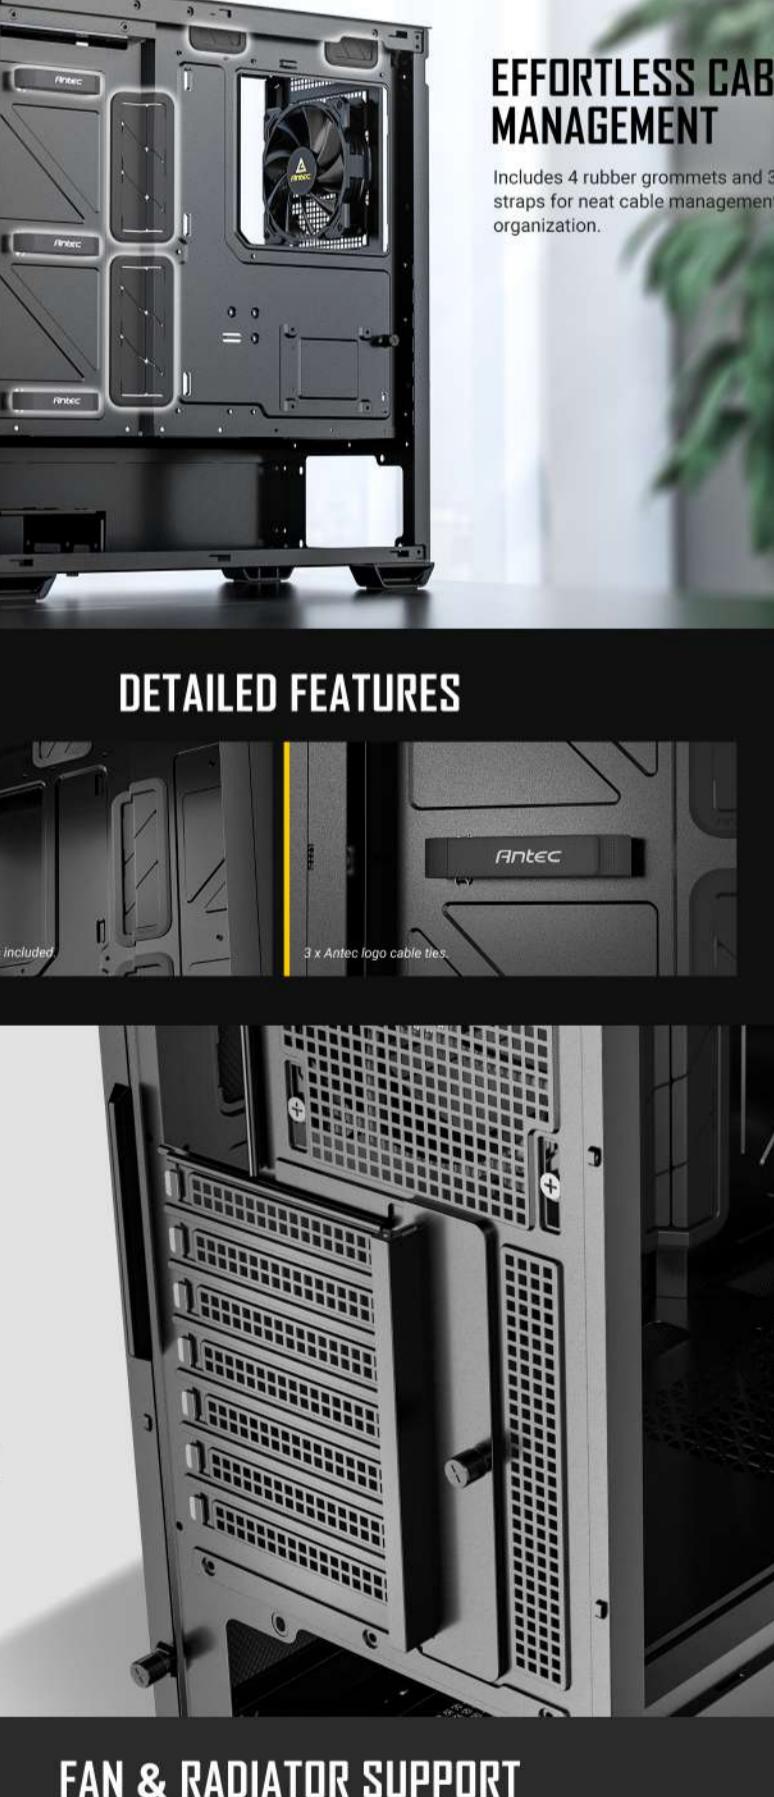

## OPTIMIZED AIRFLOW FOR GPU COOLING

Large bottom intake design enhances airflow, while about 30mm of clearance between the bottom fans and the GPU allows reverse fans to deliver direct, efficient cooling.

GEFORCE RTX 30mm

## POWERFUL COOLING COMPATIBILITY

Max. CPU Cooler Height : 175mm

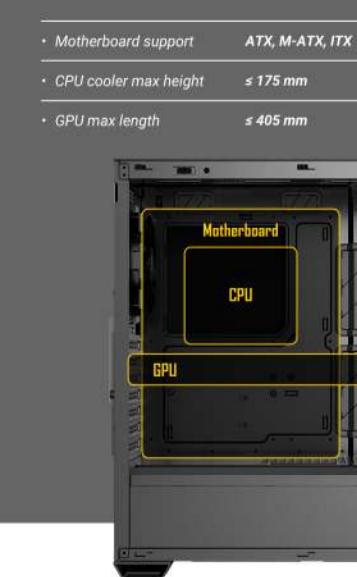

## SUPPORTS RTX 50 SERIES GRAPHICS CARDS

Accommodates GPUs up to 405mm in length, ensuring compatibility with the latest RTX 50 Series and other high-end components.

## DUAL SILENT SIDE PANELS

Sound-dampening foam on both side panels for effective noise reduction.

## TYPE-C 3.2 GEN 2 READY

Equipped with one high-speed USB Type-C 10Gbps port, Equipped with one high-speed USB Type-C 10Gbps port.

• Power

• Headphone / Mic Combo Jack

• USB 3.2 Gen 2 (10Gbps)

Airflow Mode with a mesh filter for maximum cooling, and Silent Mode with a solid cover for noise reduction, both easy to remove and clean.

Silent Mode - Solid Cover

Airflow Mode - Mesh Filter
