

MODULE | ELITE SERIES

Team ELITE (DDR3 1866/1600/1333)

TEAM launches the latest ELITE DDR3 dual channel module kit. In addition to delivering the super capacity of 16GB (2x8GB), it is faster (DDR3-1866) and has better performance (maximum computing speed up to 14,900 MHz). Additionally, PCs respond faster and smoother when using high-capacity memory modules in dual-channel configuration. The ELITE DDR3 from Team is characterized by its high speed, low power consumption, and high efficiency features. More importantly, it is compatible with various motherboards using various chipsets on the market.

Main Feature

- Larger capacity: 16GB Kit (8GBx2)
- Faster speed: DDR3-1866
- Greater performance: Maximum computing speed up to 14,900MHz
- Energy saving: 1.5V

Specification

Item	Specification
TYPE	Laptop
Module specification	204Pin SO-DIMM Non ECC
DRAM Configuration	256x8 , 512x8
Capacity	2GB / 2GBx2 / 4GB / 4GBx2 / 8GB / 8GBx2
	10,664 MB / Sec (PC3 10600)
Data transfer bandwidth	12,800 MB / Sec (PC3 12800)
	14,900 MB / Sec (PC3 14900)
CL-value	CL9-9-9-24
	CL11-11-11-28
	CL13-13-13-32
Working voltage	1.35V / 1.5V
PCB	6 / 8-layer PCB
Warranty	Lifetime Warranty

Ordering Information
