GAME IN A NEW LIGHT

The MasterBox 540

A vivid, iridescent design spans the entire front panel of the MasterBox 540. Customizable ARGB strips radiate behind the transparent façade for a stunning display of light. The ARGB strips can be set to match the color scheme of the system inside with an included controller, and will also sync to the motherboard for a limitless potential for customization.

A zero-compromise body allows the entire top panel to be removed, making it easier to route large radiators, install fans, and offer better overall access to the build. From aesthetics to component compatibility, the MasterBox 540 amazes in both its appearance and its potential.

SPECIFICATIONS

Product Name		MasterBox 540
Product Number		MB540-KGNN-S00
Exterior Color		Black
Materials	Exterior	Steel, Mesh, Plastic
	Left Side Panel	Tempered Glass
Dimensions (L x W x H)	incl. Protrusions	499.3 x 208.6 x 498mm
	excl. Protrusions	488.3 x 208.6 x 498mm
Volume		51.87L
Motherboard Support		Mini-ITX, Micro-ATX, ATX, E-ATX* (*up to 12" x 10.7" motherboards, may impact cable management feature)
Expansion Slots		7
Drive Bays	5.25" ODD	0
	2.5"/3.5" combo	2
	2.5" SSD	4
I/O Panel	USB Ports	2 x USB 3.2 Gen1 Type-A 1 x USB 3.2 Gen2 Type-C
	Audio In / Out	1x 3.5mm Headset Jack (Audio + Mic)
	Others	1x RESET/ARGB button
Included Fan(s)	Top	N/A
	Front	N/A
	Rear	1 x 120mm SickleFlow PWM ARGB
Fan Support	Top	3 x 120mm / 2 x 140mm
	Front	3 x 120mm / 2 x 140mm
	Rear	1 x 120mm
Radiator Support	Top	120/140/240/280/360mm (*recommended maximum thickness - 55mm*)
	Front	120/140/240/280/360mm
	Rear	120mm
Clearances	CPU Cooler	165mm / 6.49"
	Power Supply	180mm / 7.08" (295mm / 11.61" with HDD cage removed)
	Graphics Card	410mm / 16.10"
Dust Filters		Bottom, Front, Top
Power Supply Support		ATX
Warranty		2 Years

FEATURES

ARGB Ether Front Panel – Inspired by the design of automotive lighting, the front panel houses ARGB lighting strips paired with a front diffuser. This design element is fused to the DarkMirror finish of the façade, delivering a unique twist on conventional illumination.

Standardized ARGB Connector & Controller Included – The ARGB Ether Front Panel can be controlled via software or the included ARGB controller, pre-loaded with unique lighting presets. The controller also comes pre-routed to the RESET/ARGB button in the front panel.

Removable Top Panel – The top panel is entirely removable for improved access to the components during assembly. Ease of use also facilitates the mounting of cooling solutions such as fans and radiators.

Screwless & Tool-Free Design TG Side Panel – The tempered glass side panel is secured with pins for easy removal, facilitating quick access to the internals without the use of tools. An optional screw can be installed to further secure the tempered glass side panel.

Versatile Cooling Options – Support for up to seven 120mm fans and dual 360mm radiators on the top and front panel ensure high compatibility for liquid-cooled systems.

Room For Upgrades – Support for up to a 410mm graphics card, a 165mm CPU cooler, and up to a 180mm PSU in length provides room for upgrades to stay ahead of the game.

Breathable Power Supply Shroud – The PSU cover is ventilated on top of the power supply location, this allows actively cooled units to be installed either with the fan facing the top or bottom, with the possibility to install passively cooled power supplies.

PACKING INFORMATION

Cont.	W/ Pallet	Carton/ Pallet	W/O Pallet
20'	280	28	336
40'	560	28	672
40 HQ	640	32	756

EAN code	4719512117927
UPC code	884102090233
Net weight	7.7kgs
Gross weight	9.03kgs
Carton dimension (L x W x H)	558mmx290mmx584mm

FEATURES

ARGB Ether Front Panel

Inspired by the design of automotive lighting, the front panel houses an ARGB lighting structure with a front diffuser. This design element is fused to the DarkMirror finish of the façade, delivering a unique twist on conventional ARGB illumination.

Standardized ARGB Connector & Controller Included

The ARGB Ether Front Panel can be controlled either via software or the included ARGB controller, pre-loaded with unique lighting presets. The controller also comes pre-routed to the RESET/ARGB button in the front panel.

Removable Top Panel

The top panel is entirely removable for improved access to the components during assembly and for a facilitated mounting of cooling solutions such as fans and radiators.

Screwless & Tool-Free Design TG Side Panel

The TG side panel is secured with pins for easy removal, facilitating quick access to the internals without the use of tools. An optional screw can be installed to further secure the tempered glass side panel.

Versatile Cooling Options

Support for up to seven 120mm fans and dual 360mm radiators on the top and front panel ensure high compatibility for liquid-cooled systems.

Breathable Power Supply Shroud

The PSU cover is ventilated on top of the power supply location, this allows actively cooled units to be installed either with the fan facing the top or bottom, with the possibility to install passively cooled power supplies.
