## 360 PANORAMA

MasterFrame 360 PANORAMA is an open-frame showcase chassis designed for builders who demand both performance and presentation. Featuring panoramic tempered glass side panels, modular component support, and next-gen connectivity, it offers a striking platform to display your hardware and creativity. With built-in PCIe 5.0 riser and ARGB spotlights, it's ready to shine right out of the box.

## FEATURES

### Industry-First 360° DIY Liquid Cooling Chassis

Introducing the market's first 360-degree showcase chassis—purpose-built for open-loop liquid cooling. Create a full-wrap cooling loop around your system with dedicated space and mounting options that allow tubing to flow around all sides like a custom amusement park ride.

### Panoramic Glass Design for Immersive Showcase

Showcase your build—and your collectibles—from every angle with ultra-clear tempered glass panels on three sides.

Like a 360-degree display case, it reveals every detail of your components and figures with stunning clarity. Whether you're highlighting open-loop liquid cooling or custom hardware configurations, this chassis turns your rig into a show-stopping centerpiece with story and style.

### Front Display Stage for Personal Style

A mirrored front platform lets you exhibit your favorite collectibles, figures, or themed accessories, blending personal expression with system aesthetics. Combined with front-facing ARGB effects, your setup becomes a vivid and playful showcase.

### Massive Cooling Compatibility

To ensure exceptional thermal performance, the case supports fan sizes ranging from 120 mm to 200 mm, with space for up to twelve 120 mm fans—six on the top and six on the bottom. It also supports radiators up to 360 mm, meeting the cooling demands of high-end custom liquid cooling setups.

### Compatible with Standard and BTF Motherboards

Compatible with Mini-ITX, Micro-ATX, and ATX motherboards, including BTF (back-connect) layouts within the ATX form factor.

Features 110 mm of cable routing clearance for a clean and clutter-free showcase.

### PCIe 5.0 Riser Cable Included

Includes a premium PCIe 5.0 riser cable that enables vertical GPU mounting providing both next-gen performance and an elevated presentation right out of the box.

### Wide Component Compatibility

Accommodates up to 430 mm GPUs and 210 mm PSUs built to handle flagship components without compromise.

### Next-Gen Connectivity at Your Fingertips

Features USB 4.0 Gen 2x2 Type-C (up to 20G) and 2x USB 3.2 Gen 1 Type-A ports (up to 5G), providing ultra-fast data transfer and future-ready accessibility.
