## CONNECTIONS

## FEATURES

### Support Back-Connect Motherboard

Supporting ATX and Micro-ATX Back-connect PROJECT ZERO motherboards enables easy installation without the worry of forgetting to connect cables, which might otherwise require disassembling graphics cards and coolers.

### Upgraded Airflow Layout

At the bottom, there's a 40 mm clearance for optimal airflow, offering various intake and exhaust configuration choices. Additionally, it supports the flexibility of mounting a 360mm radiator in a push-pull configuration, giving you the option to install it either on the side or bottom.

### 270-degree Panoramic Display

Drawing inspiration from the MAG logo, create a distinctive chassis design that embodies the unique MAG characteristics. The front interior of the chassis incorporates a space for displaying figurines, complemented by a 270-degree panoramic tempered glass, transforming it into a showcase-style chassis.

### Multi-function Storage Bracket

The multi-function storage bracket serves as a convenient tool for SSD installation and cable management, maintaining a clean and aesthetic appearance in the main chamber.

### Switchable PCIe Brackets

Vertical GPU bracket supports installation of graphics card vertically without installing extra bracket and also can install 2 x 60 mm fans in the same time.

### Pre-build with Reverse-blade Fan

Pre-installed on the side are reverse blade fans, allowing the unobstructed display of the ARGB fan's beauty without any interference from fan frames.

### 1 to 4 ARGB-FAN Control Board

This fan control board supports up to 4 x ARGB fan function. Allow you to use the LED switch button to adjust the ARGB lighting intuitively.
